Professional Summary

Full-Stack Developer with production experience building scalable web apps, analytics dashboards, and REST APIs using React.js, Node.js, PostgreSQL, and MongoDB. Track record of delivering end-to-end features in agile teams with a focus on performance and clean architecture.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Frontend: React.js, Next.js, Redux, React Hooks, Context API, Tailwind CSS, Chart.js
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware, API Optimization
Database: PostgreSQL, MongoDB, Mongoose ODM, Redis, Schema Design, Query Optimization
Tools & Platforms: Git, GitHub, Postman, Docker (Basic), Vercel, Render, Supabase, CI/CD

Experience

Full-Stack Developer Intern

Mar 2026 – Present

RD Group of Industries

Remote

- Shipped production features with Next.js and TypeScript, improving system performance and maintainability across live applications
- Built and optimized REST APIs with Node.js/Express, reducing response latency on high-traffic endpoints through query optimization
- Delivered features end-to-end in agile sprints, collaborating with cross-functional teams to improve UX and application responsiveness

MERN Stack Developer Intern

Apr 2025 – Oct 2025

Parashift Technologies Pvt. Ltd.

Mumbai, India

- Built and deployed 3+ full-stack features using the MERN stack in a production environment, owning both frontend and backend
- Built responsive UIs with React.js, improving cross-device compatibility for 10,000+ monthly users
- Implemented JWT-based authentication and Express middleware, eliminating critical security vulnerabilities in the API layer
- Optimized MongoDB queries and data handling patterns, cutting average API response time by **30%**

Projects

AdForge – E-commerce Analytics Dashboard | *React, Node.js, PostgreSQL, Shopify API, Meta Ads API* | [Live Demo](#) 2026

- Built a multi-client dashboard integrating Shopify and Meta Ads APIs, surfacing ROAS, CPA, MER, revenue, and top products in a unified view
- Designed normalized PostgreSQL schemas for products, variants, orders, and daily aggregation, enabling scalable reporting across large datasets
- Architected a multi-tenant model separating Meta attribution from Shopify actuals for accurate blended ROAS; built Chart.js visualizations with date filters

DevInsight – AI Code Review Assistant | *React, Node.js, OpenAI API, MongoDB, Redis* | [Live Demo](#) 2025

- Built an AI-powered code review platform that analyzes GitHub repositories for improvements, security issues, and code smells via OpenAI APIs
- Implemented Redis caching for repeated analysis requests, reducing redundant API calls and improving response time by **40%**
- Built webhook integrations for automated pull request analysis, enabling real-time developer feedback without manual triggers

NutriTrack – Nutrition Tracking Platform | *React, Node.js, MongoDB, Chart.js* | [Live Demo](#) 2026

- Built a full-stack meal tracking app with JWT auth, meal logging, and a macro analytics dashboard for calories, protein, carbs, and fat trends
- Developed RESTful APIs for nutrition history CRUD; designed MongoDB schemas for time-series queries and daily aggregation
- Created responsive Chart.js dashboard components, achieving a Lighthouse performance score above 90

Certifications & Achievements

The Complete 2024 Web Development Bootcamp

Udemy

Dr. Angela Yu | *HTML, CSS, JavaScript, Node.js, React, MongoDB, PostgreSQL*

AWS Certified Cloud Practitioner

Amazon Web Services

Core AWS services, cloud architecture, security, pricing, and global infrastructure

LeetCode – Data Structures & Algorithms

leetcode.com/u/Riteshyad962

Arrays, Strings, Linked Lists, Trees, Dynamic Programming

Education

Class XII – Higher Secondary Education

77%

Class X – Secondary Education

88%
